WORKSHOP SUMMARY

On 30th of August, 2019, a workshop was conducted by IQAC, Udalguri College at 11:00 a.m., entitled "Students Seminar on English Pronunciation". This report gives an overview of the workshop, summarizes the various discussions and notes the principle conclusions that were reached.

DISCUSSION

In this aspect for the communication, people have adapted English language as the local language of the world. Our society moves on the wheels of the communication. So, for the better communication, we need correct pronunciation, because pronunciation affects the very much on the understanding of the meanings of the words. For the effective communication, everyone should have vocabulary, knowledge of grammar rules. Correct pronunciation is a basis for efficient communication in English. English is widespread language and it has developed a large number of regional dialects but they should not matter too much to a non- native speaker. Native speakers should work on practicing correct and authentic English pronunciation. As English is the local language of the world, it has immense number of people around to speak it up. Every one of them has its own way to deal with it but its quite sure that language is not that kind of abstract art which can be dealt in one's way like any abstract painting.

OBJECTIVES DISCUSSED

1. Pronunciation plays an important role in English speaking to express our ideas.
2. English is not native language for everyone and hence the pronunciation of Indian speakers of English is different from that of native speaker.
3. It is the pronunciations that leave impact to the listeners , as it is an essential part of every speaker to speak with the right pronunciation.
4. Many people learning and speaking English language often do not pay any attention to their pronunciation.
5. To avoid the thinking that pronunciation is not as important as speaking and pronunciation is less important than grammar and vocabulary.

CONCLUSION : The participants are made aware of the positive effects of body language and how they can use it for their own benefit as an effective communication tool. They are made to understand the importance of communication as well as pronunciation and how they are interrelated to each other.

The following page includes the information of the student participants that were present in the workshop.
